

Cohesive Devices

Cohesive devices, such as adverbials, are words or phrases which are useful to keep the story flowing, creating cohesion in and across paragraphs.

The following table contains different adverbials. At the top, add labels for whether the lists below show adverbials for **time**, **manner**, **place**, **degree** (how much) or **frequency** (how often). Add your own examples of adverbials in the spaces at the bottom.

here	now	again	carefully	utterly
there	then	usually	forcefully	completely
underneath	today	often	quietly	hardly
away	tomorrow	rarely	hastily	somewhat
outside	meanwhile	always	worryingly	relatively

Next, use one of the adverbials from the table above to write your own sentence as Watson from the Vehicle Text.
